I would think so. Have not really reviewed the folder since we left in March to see updates to the folder. But I am sure I could locate for you.

Hi:

Do you have all the manifests electronically?

Eric,

Here is the latest on the power pole at NFB. We will keep you up to date as we receive notifications.

Thanks,

I received response from a call I placed to National Grid; Melissa placed the order request to have the wires and meter removed from the temporary pole.

However, since we are commercial and not residential they cannot give us an exact date. All she could tell me is that it will take up to 2 months to get the order complete; it will not be any time soon.

An email will be send out re: service done at the location to my email address.

Thanks Frank. Attached is the signed 1900-55 for 08/10 and you can finalize 08/11. Any news about the electric pole?
